Not only is this the largest listing we have ever made, it is the best one ever in terms of quality and selection. We have pulled out all stops to offer you, our readers, the opportunity to add auction quality items to your collection. Some items, due to age and the ravages of time may not be equal in quality to others but you will be shocked at how well these envelopes have survived overall. (We should only do as well.); Many items are one-of-a-kind or in limited supply. We recommend a list of alternates be sent with your order.

Current Offering of

CURRENCY

We have just received a super consignment of Large Size Type Notes from one of our oldest customers. Many of these notes were sold by us over 15 years ago and all were hand picked by our client for quality and eye appeal. Since our customer has owned all of these for quite some time, his prices to us were very fair and we can pass these bargains along to you. We promise you that you will not find notes of this quality and selection at these prices anywhere else. The currency market is on the move again; our past ads have been sellouts, so don't wait. Now is the time to buy, before the market rises to past price levels, which it is sure to do. We suggest a call to hold your selections as all are one of a kind and we hate to see someone miss bargains like these.

Call TODAY to reserve your order.

The four architects shown on this block (Frank Lloyd Wright, Mies van der Rohe, Eero Saarinen and Walter Gropius) are famous modern architects. Many people do not like their work, finding it too extreme. Obviously the man at the BEP was one of those as he perforated these blocks on the bias. We think you'll agree, they're quite strange. This green imperf airmail was originally issued for the Spanish-American Exhibition in 1930. While this is oudoubtedly a reprint, the printer really mixed it up. Superior Is Pleased To Offer A Hoard Of Choice

Shekels Of Tyre

Witnesses to the triumphs and tragedies of ancient Judaea and the early days of Christianity

Shortly before the "Last Supper" (actually the Jewish feast of Passover), "Then entered Satan into Judas surnamed Iscariot . . . and (he) communed with the chief priests and captains, how he might betray (Jesus) unto them. And they were glad, and covenanted to give him money" (Luke 22:3-5). This "Betrayal Money" is now described elsewhere in the New Testament more specifically as "thirty pieces of silver" (Matthew 26:15).

Since thirty shekels of silver was the traditional price of blood to be paid in the case of a servant accidentally killed (Exodus 21:32), it is reasonable to assume that the "thirty pieces of silver" paid to Judas were actually silver shekels. And there is only one logical choice for the type of these shekels - Shekels of Tyre - since these were the only coins accepted as payment of the annual Jewish Temple Tax according to the tractate Shekalim (Shek. 1:7) . . . and thus these were the silver coins most readily available to the chief priests.

Last year, a small hoard of 161 Shekels of Tyre was discovered in Eastern Lebanon, less than 25 miles away from the Tyrian mint that produced them in the period from 100 to 89 BC (since dates appear on the coins), at the time that the area was controlled by the Maccabean ruler of Judaea - Alexander Jannaeus.

This hoard must have been buried around the time of Christ, since all of the Shekels are in a remarkable state of preservation, grading Choice Very Fine by modern conservative standards.

The area in which they were found was "inhabited by many Jews even before its annexation to Judaea" (Macmillan Bible Atlas). Perhaps this hoard represents the remnants of a shipment originally on the way to Jerusalem for payment of taxes that was waylaid "by the Itureans, an Arab tribe which had exploited the weakness of the Seleucids to expand toward Lebanon and the sea" (Bible Atlas). The exact circumstances surrounding the origin of these 161 Shekels of Tyre can only be a subject of speculation . . . but it is no speculation that these over 2000 year old coins are of high quality, well struck on wide flans, and of the highest historical interest as the type of coin used in the "Thirty Pieces of Silver" and for payment of the Jewish Temple Tax.

Whether or not you already own a single ancient coin, one of these witnesses to the triumphs and tragedies of ancient Judaea and the early days of Christianity belongs in your collection . . . especially at our low low hoard price of only $275 per Choice Very Fine specimen. When offered, these pieces usually sell between $350 and $500!

The Famed "30 Pieces Of Silver"

Coin Specifications

To commemorate their hard-won independenee from Syria, Tyre minted their famous silver Shekels from 126 BC until the outbreak of the First Jewish Revolt in 66 AD.

The obverse of the Shekels of Tyre feature the Phoenician god Melkart, who was the eliief deity of the eity. Melkart's eliaracteristics were similar to those of the Greek god Hercules; he is depieted with a lion's skin around his neek, and his eliub is shown on the other side.

An Egytian-style eagle dominates the Shekel's reverse. Its riglit elaw rests on the bow of a ship, alluding to Tyre's maritime industry. The Greek letters above Melkart's eliub represent the date (years sinee aehieving independenee), and the surrounding inseription can be translated as "Tyre the Holy and Inviolable."

Our hoard eoins are well struek on wide flans, grading Choiee Very Fine. They weigh about 14 grams, similar to the U.S. half dollar. Every Shekel of Tyre has been authenticated and will be aeeompanied by a Professional Numismatists Guild Certificate eertifying authentieity.

Because of the very small supply of hoard eoins available, early orders are higlily recommended to avoid possible disappointment. (Note that a handful of the Shekels in this hoard are premium quality Extremely Fine pieees; eontaet Ira Goldberg for availability.)

ANCIENT COIN HOARD

PAEONIA HOARD
SILVER TETRADRACHMS

The Kingdom of Paeonia became independent following the death of Perdikkas III of Macedon in 359 B.C. For the next seventy years the various kings issued coinage, mainly in tetradrachm size; these coins were later imitated by the Celtic tribes. These tetradrachms come from a region known in ancient geography as Paeonia, a land lying on the northern borders of Macedonia between the river Strymon and the river Axius. Very few historical facts are known about Paeonia, and although both Philip II and Alexander III, the architects of Macedon's greatness, led expeditions into the region, there can be little doubt that the hardy inhabitants of this rather inhospitable tract enjoyed a considerable independence, taking advantage of political confusions at the centres of Macedonian power to stir up trouble for the royal house of Macedon. The mountain ranges in the region, especially the Pangaean range in lower Macedon abounded with rich veins of gold and silver which had been worked by local tribesmen for some time; ready access to the materials for coinage coupled with military endeavours of great magnitude calling for large payments to troops and bribery payments to would-be hostile tribes account for the big issues of coins in this period.

The histories of the kings of Paeonia are lost in antiquity. Lykkeios (circa 359-340 B.C.) is known, apart from his extremely rare coins, for his participation in military alliances against Philip II of Macedon: the Paeonian cavalry of Patraos (circa 340-315 B.C.) played an important part in the Persian campaigns of Alexander III, although these were mercenary soldiers, and not led by their king.

The Choice Very Fine examples we offer were issued under King Patraos, circa 340-315 B.C., and display the laureate head of Apollo right / Armed warrior on horse prancing right, spearing fallen enemy.

Normal retail is $350.00 - $450.00 each.

IAN SMITH'S RHODESIA STAMP ISSUES

Long the subject of an embargo, collectors in the U.S. were prohibited from owning these issues. With the end of the Smith government in 1978 the embargo was lifted, but by then it proved virtually impossible to locate these sets. We have just been fortunate in purchasing the collection of a Rhodesian emigre to the U.S. Virtually all sets are NH and many are also available as mint blocks of 4 and used sets of singles (lists available on request). Take advantage of the following offer while supplies last.
Many of the sets are only available in limited quantities.

1932 wayzata airmail

In 1932 a corporation entitled Aerial World Tours, Inc., of Minneapolis, Minn., proposed to the Newfoundland Government that if they would supply 400,000 one-dollar air mail stamps, the corporation, would at some future date (if enough could be raised by selling the stamps), fly a passenger and mail load across the Atlantic.

The contract provided that Aerial World Tours, Inc., could requisition and actually withdraw stamps in lots of $25,000 before any flight took place.

The company finally secured a Sikorsky sea plane, and it landed at Wayzata Bay on Lake Minnetonka, Minnesota, on August 31, 1932. Is is from this fact that the issue gets its name.

Strenous efforts were made to raise more money and continue plans for the flight, but on September 10, 1932, the Newfoundland Government, convinced that the proposed flight would never take place withdrew from the contract, and ordered the Northwestern National Bank of Minncapolis to destroy the remaining 375,000 stamps printed. This was a death blow to the entire enterprise.

Needless to say this stamp is a must for any collector of Canadian or Newfoundland stamps. All stamps are in Fine, NH mint condition.
